OTHER

Virgo Systems Kft has been publishing a monthly public newsletter with a frontend theme, which I edit since September 2017. I try to keep track of the ongoing changes in the profession and to keep up with the new technologies.

EXPERIENCES

SENIOR FRONTEND DEVELOPER – VIRGO SYSTEMS KFT.

2017. 02. – currently

In 2017 February I became the leader of the frontend team on the Extreme Digital project. Since 2017 October, I work as the leader of the frontend team on Telenor's webshop project, besides I still support Extreme Digital with new features, using technologies like jQuery, SCSS, LESS, PHP, HTML5, VanillaJS

FRONTEND DEVELOPER – VIRGO SYSTEMS KFT.

2015. 05. – 2017. 02.

I started as junior frontend developer in 2015. May. My first project was the full rewrite of the biggest Hungarian webshop, Extreme Digital. I started to get acquainted with HTML5, CSS3 and the basics of JavaScript here. After that I worked for several projects as the only frontend developer on them.

SOFTWARE TESTER – VIRGO SYSTEMS KFT.

2015. 01.- 2015 05.

I started working at Virgo Systems Kft. as a student worker in a software tester position. I wrote automated tests with Selenium test framework to the <https://eer.gov.hu> governmental site. I learned here how to work in a team, and in a Scrum team as well.

STUDIES

UNIVERSITY, 2013 - 2017

Budapesti Műszaki és Gazdaságtudományi Egyetem

I graduated from the university in 2017 January as an IT engineer. I never applied to an MSc.

HIGH SCHOOL, 2008 - 2013

Zalaegerszegi Zrínyi Miklós Gimnázium

I graduated from mathematical high school in 2013, with straight A's.
